Example of a Curriculum Assessment Matrix: NOT a Required Form

	Elements	(note: clin ed and distance ed sep	arated out)
6A	The comprehensive curriculum plan is based on: (1) information about the contemporary practice of physical therapy; (2) standards of practice; and (3) current literature, documents, publications, and other resources related to the profession, to the delivery of health care services, to physical therapy education, and to	Timeline and Person Responsible (when done; who is ultimately responsible for it) Mechanism(s) used to collect data (tools & sources of info including meetings) Brief Summary and Analysis of Data	Timeline for implementation & reassessment of planned changes: Trigger/Threshold/Expected Level (for every mechanism listed) ata Collected (for every mechanism listed)
	educational theory. (note: addresses 2C re: consideration of changing roles and responsibilities and dynamic nature of profession and health care delivery system)		
	The curriculum plan includes courses in general education and basic sciences that prepare the student for the technical courses, or competencies, if the	Timeline and Person Responsible Mechanism(s) used to collect data (tools & sources of info	Timeline for implementation & reassessment of planned changes: Trigger/Threshold/Expected Level (for every mechanism listed)
6B	program is competency based.	Brief Summary and Analysis of Data Collected (for every mechanism listed)	

6C	The curriculum plan includes a description of the curriculum model and the educational principles on which it is built.	Timeline and Person Responsible Mechanism(s) used to collect data (tools & sources of info including meetings) Brief Summary and Analysis of Da	Timeline for implementation & reassessment of planned changes: Trigger/Threshold/Expected Level (for every mechanism listed) ta Collected (for every mechanism listed)
6D	The curriculum plan includes a series of organized, sequential and integrated courses designed to facilitate achievement of the expected student outcomes including the expected student learning outcomes described in Standard 7. The curriculum includes organized sequences of learning experiences that prepare students to provide physical therapy care to individuals with diseases/disorders involving the major systems, individuals with multiple system disorders, and individuals across the lifespan and continuum of care, including individuals with chronic illness.	Timeline and Person Responsible Mechanism(s) used to collect data (tools & sources of info including meetings) Brief Summary and Analysis of Da	Trigger/Threshold/Expected Level (for every mechanism listed) ta Collected (for every mechanism listed)
6E	The curriculum plan includes course syllabi that are comprehensive and inclusive of all institutional and CAPTE expectations.	Timeline and Person Responsible Mechanism(s) used to collect data (tools & sources of info including	Timeline for implementation & reassessment of planned changes: Trigger/Threshold/Expected Level (for every mechanism listed)
		meetings) Brief Summary <u>and</u> Analysis of Da	ta Collected (for every mechanism listed)

6F	The curriculum plan includes learning objectives stated in behavioral terms that reflect the breadth and depth of the course content and describe the level of student performance expected.	Timeline and Person Responsible Mechanism(s) used to collect data (tools & sources of info including meetings) Brief Summary and Analysis of Da	Timeline for implementation & reassessment of planned changes: Trigger/Threshold/Expected Level (for every mechanism listed) ata Collected (for every mechanism listed)
6G	The curriculum plan includes a variety of effective instructional methods selected to maximize learning. Instructional methods are chosen based on the nature of the content, the needs of the learners, and the defined expected student outcomes.	Timeline and Person Responsible Mechanism(s) used to collect data (tools & sources of info including meetings) Brief Summary and Analysis of Da	Timeline for implementation & reassessment of planned changes: Trigger/Threshold/Expected Level (for every mechanism listed) ata Collected (for every mechanism listed)
6Н	The curriculum plan includes a variety of effective tests and measures and evaluation processes used by faculty to determine whether students have achieved the learning objectives.	Timeline and Person Responsible Mechanism(s) used to collect data (tools & sources of info including meetings) Brief Summary and Analysis of Da	Timeline for implementation & reassessment of planned changes: Trigger/Threshold/Expected Level (for every mechanism listed) ata Collected (for every mechanism listed)
6Н	Regular, individual testing and evaluation of student performance in the cognitive, psychomotor, and affective domains is directly related to learning objectives and includes expectations for safe practice during clinical education experiences.	Timeline and Person Responsible Mechanism(s) used to collect data (tools & sources of info including meetings) Brief Summary and Analysis of Da	Timeline for implementation & reassessment of planned changes: Trigger/Threshold/Expected Level (for every mechanism listed) ata Collected (for every mechanism listed)

6К	The curriculum for the PTA program, including all general education, pre-requisites, and technical education courses required for the degree, can be completed in no more than 5 semesters or 80 academic weeks or 104 calendar weeks, including 520-720 hours of clinical education.	Timeline and Person Responsible Mechanism(s) used to collect data (tools & sources of info including meetings) Brief Summary and Analysis of Da	Timeline for implementation & reassessment of planned changes: Trigger/Threshold/Expected Level (for every mechanism listed) ata Collected (for every mechanism listed)
6L	The institution awards the associate degree upon satisfactory completion of the physical therapist assistant education program or assures the associate degree is awarded by an affiliating college at the satisfactory completion of the physical therapist assistant education program	Timeline and Person Responsible Mechanism(s) used to collect data (tools & sources of info including meetings) Brief Summary and Analysis of Da	Timeline for implementation & reassessment of planned changes: Trigger/Threshold/Expected Level (for every mechanism listed) ata Collected (for every mechanism listed)
		Timeline and Person Responsible Mechanism(s) used to collect data (tools & sources of info including meetings)	Timeline for implementation & reassessment of planned changes: Trigger/Threshold/Expected Level (for every mechanism listed)
	I.F. divination		ata Collected (for every mechanism listed)
Clinica	al Education	I: Lo	
6D	The clinical education component provides organized and sequential experiences coordinated with the didactic component of the curriculum. Clinical education includes both integrated and fulltime terminal	Timeline and Person Responsible Mechanism(s) used to collect data (tools & sources of info including meetings)	Timeline for implementation & reassessment of planned changes: Trigger/Threshold/Expected Level (for every mechanism listed)
	experiences.	Brief Summary <u>and</u> Analysis of Da	ata Collected (for every mechanism listed)

6J1	The curriculum plan includes clinical education experiences for each student that encompass, but are not limited to: management of patients/clients with diseases and conditions representative of those commonly seen in practice across the lifespan and the continuum of care	Timeline and Person Responsible Mechanism(s) used to collect data (tools & sources of info including meetings) Brief Summary and Analysis of Da	Timeline for implementation & reassessment of planned changes: Trigger/Threshold/Expected Level (for every mechanism listed) ata Collected (for every mechanism listed)
6J2	The curriculum plan includes clinical education experiences for each student that encompass, but are not limited to: practice in settings representative of those in which physical therapy is commonly practiced	Timeline and Person Responsible Mechanism(s) used to collect data (tools & sources of info including meetings) Brief Summary and Analysis of Da	Timeline for implementation & reassessment of planned changes: Trigger/Threshold/Expected Level (for every mechanism listed) ata Collected (for every mechanism listed)
6J3	The curriculum plan includes clinical education experiences for each student that encompass, but are not limited to: involvement in interprofessional practice	Timeline and Person Responsible Mechanism(s) used to collect data (tools & sources of info including meetings) Brief Summary and Analysis of Da	Timeline for implementation & reassessment of planned changes: Trigger/Threshold/Expected Level (for every mechanism listed) ata Collected (for every mechanism listed)
6J4	The curriculum plan includes clinical education experiences for each student that encompass, but are not limited to: participation as a member of the PT and PTA team	Timeline and Person Responsible Mechanism(s) used to collect data (tools & sources of info including meetings) Brief Summary and Analysis of Da	Timeline for implementation & reassessment of planned changes: Trigger/Threshold/Expected Level (for every mechanism listed) ata Collected (for every mechanism listed)

6J5	The curriculum plan includes clinical education experiences for each student that encompass, but are not limited to: other experiences that lead to the achievement of the program's defined expected	Timeline and Person Responsible Mechanism(s) used to collect data (tools & sources of info including meetings)	Timeline for implementation & reassessment of planned changes: Trigger/Threshold/Expected Level (for every mechanism listed)
	student outcomes	Brief Summary <u>and</u> Analysis o	of Data Collected (for every mechanism listed)
	The number and variety of clinical sites meets program needs	Timeline and Person Responsible	Timeline for implementation & reassessment of planned changes:
2C		Mechanism(s) used to collect data (tools & sources of info including meetings)	Trigger/Threshold/Expected Level (for every mechanism listed)
		Brief Summary <u>and</u> Analysis o	of Data Collected (for every mechanism listed)
	Clinical experiences are of the appropriate length and placement within the curriculum	Timeline and Person Responsible	Timeline for implementation & reassessment of planned changes:
20		Mechanism(s) used to collect data (tools & sources of info including meetings)	Trigger/Threshold/Expected Level (for every mechanism listed)
Brief Summary <u>and</u> Analysis of Data Collected (for every		of Data Collected (for every mechanism listed)	

Distan	ce Education		
	faculty teaching by distance are effective in the provision of distance education	Timeline and Person Responsible	Timeline for implementation & reassessment of planned changes:
611		Mechanism(s) used to collect data (tools & sources of info including meetings)	Trigger/Threshold/Expected Level (for every mechanism listed)
		Brief Summary <u>and</u> Analysis	of Data Collected (for every mechanism listed)
	the rigor of the distance education courses is equivalent to that of site-based courses	Timeline and Person Responsible	Timeline for implementation & reassessment of planned changes:
612		Mechanism(s) used to collect data (tools & sources of info including meetings)	Trigger/Threshold/Expected Level (for every mechanism listed)
		Brief Summary <u>and</u> Analysis	of Data Collected (for every mechanism listed)
	student performance meets the expectations of the faculty as described in course syllabi and	Timeline and Person Responsible	Timeline for implementation & reassessment of planned changes:
613	demonstrated in student assessment	Mechanism(s) used to collect data (tools & sources of info including meetings)	Trigger/Threshold/Expected Level (for every mechanism listed)
		Brief Summary <u>and</u> Analysis	of Data Collected (for every mechanism listed)

614	there is a mechanism for determining student identity during course activities and when testing occurs at a distance	Timeline and Person Responsible Mechanism(s) used to collect data (tools & sources of info including meetings)	Timeline for implementation & reassessment of planned changes: Trigger/Threshold/Expected Level (for every mechanism listed)
		Brief Summary <u>and</u> Analysis o	of Data Collected (for every mechanism listed)
	there is a mechanism for maintaining test security and integrity when testing occurs at	Timeline and Person Responsible	Timeline for implementation & reassessment of planned changes:
615	a distance	Mechanism(s) used to collect data (tools & sources of info including meetings)	Trigger/Threshold/Expected Level (for every mechanism listed)
		Brief Summary <u>and</u> Analysis	of Data Collected (for every mechanism listed)
	distance education students have access to academic, health, counseling, disability and	Timeline and Person Responsible	Timeline for implementation & reassessment of planned changes:
617	financial aid services commensurate with services that students receive on campus	Mechanism(s) used to collect data (tools & sources of info including meetings)	Trigger/Threshold/Expected Level (for every mechanism listed)
		Brief Summary <u>and</u> Analysis	of Data Collected (for every mechanism listed)

PTA PROGRAM CURRICULUM MAP

KEY: Type of content Expected Performance Level

K: knowledge I: introductory; beginning;

S: psychomotor skill A: intermediate;

B: behavior / affect C: competence, mastery

INSTRUCTIONS: Place term and individual course numbers, including General Education and Clinical Science courses, in separate boxes. For each course-required content area, identify where the content is taught either as knowledge, psychomotor skill or behavior/affect using the key given above. In the same box as type of content, identify the expected performance level using the letters stated above. In addition to courses in technical phase of program, include General Education and Clinical Sciences courses where appropriate (7A & 7B). **Add or delete columns as needed**

Term																
	e Number including Gen Ed and al Sciences															
7C	Work Under Direction & Supervision PT															
Ethics	, Values & Responsibilities															
7D1	Adhere to legal practice standards, including all federal, state, and institutional regulations related to patient/client care and fiscal management.															
7D2	Report to appropriate authorities suspected cases of abuse of vulnerable populations.															
7D3	Report to appropriate authorities suspected cases of fraud and abuse related to the utilization of and payment for physical therapy and other health care services.															
7D4	Perform duties in a manner consistent with the Guide for															

Term

	Conduct of the Physical Therapist Assistant (APTA) and Standards of Ethical Conduct (APTA) to meet the expectations of patients, members of the physical therapy profession, and other providers as necessary.												
7D5	Perform duties in a manner consistent with APTA's Values Based Behaviors for the Physical Therapist Assistant.												
7D6	Implement, in response to an ethical situation, a plan of action that demonstrates sound moral reasoning congruent with core professional ethics and values.												
7D7	Communicate effectively with all stakeholders, including patients/clients, family members, caregivers, practitioners, interprofessional team members, consumers, payers, and policymakers.												
	Identify, respect, and act with consideration for patients'/clients' differences, values, preferences, and expressed needs in all work-related activities.												
7D9	Apply current knowledge, theory, and clinical judgment while considering the patient/client perspective and the environment, based on the plan of care established by the physical therapist.												
7D10	Identify basic concepts in professional literature including, but												

Term													
	Number including Gen Ed and I Sciences												
	not limited to, validity, reliability and level of statistical significance.												
	Identify and integrate appropriate evidence based resources to support clinical decision-making for progression of the patient within the plan of care established by the physical therapist.												
	Effectively educate others using teaching methods that are commensurate with the needs of the patient, caregiver or healthcare personnel.												
	Participate in professional and community organizations that provide opportunities for volunteerism, advocacy and leadership.												
	Identify career development and lifelong learning opportunities, including the role of the physical therapist assistant in the clinical education of physical therapist assistant students.												
Patient	/Client Management												
	Interview patients/clients, caregivers, and family to obtain current information related to prior and current level of function and general health status (e.g., fatigue, fever, malaise, unexplained weight change).												
	Use the International Classification of Functioning, Disability and Health (ICF) to describe a patient's/client's												

Term																
	Number including Gen Ed and I Sciences															
	impairments, activity and participation limitations.															
Plan of	Care															
	Communicate an understanding of the plan of care developed by the physical therapist to achieve short and long term goals and intended outcomes.															
7D18	Review health records (e.g., lab values, diagnostic tests, specialty reports, narrative, consults, and physical therapy documentation) prior to carrying out the PT plan of care.															
7D19	Monitor and adjust interventions in the plan of care in response to patient/client status and clinical indications.															
7D20	Report any changes in patient/client status or progress to the supervising physical therapist.															
	Determine when an intervention should not be performed due to clinical indications or when the direction to perform the intervention is beyond that which is appropriate for the physical therapist assistant.															
	Contribute to the discontinuation of episode of care planning and follow-up processes as directed by the supervising physical therapist.															
Interve	ntion															
7D23a	Airway Clearance Techniques: breathing exercises, coughing															

Term

	techniques and secretion mobilization														
	Application of Devices and Equipment: assistive / adaptive devices and prosthetic and orthotic devices														
	Biophysical Agents: biofeedback, electrotherapeutic agents, compression therapies, cryotherapy, hydrotherapy, superficial and deep thermal agents, traction and light therapies														
	Functional Training in Self-Care and in Domestic, Education, Work, Community, Social, and Civic Life														
	Manual Therapy Techniques: passive range of motion and therapeutic massage														
	Motor Function Training (balance, gait, etc.)														
7D23g	Patient/Client Education														
7D23h	Therapeutic Exercise														
	Wound Management: isolation techniques, sterile technique, application and removal of dressing or agents, and identification of precautions for dressing removal														
7D24	Test & Measures														
	Aerobic Capacity and Endurance: measurement of standard vital signs; recognize and monitor responses to positional changes and														

Term															
	Number including Gen Ed and I Sciences														
	activities (e.g., orthostatic hypotension, response to exercise)														
	Anthropometrical Characteristics: measurements of height, weight, length and girth														
	Mental Functions: detect changes in a patient's state of arousal, mentation and cognition)														
	Assistive Technology: identify the individual's and caregiver's ability to care for the device; recognize changes in skin condition and safety factors while using devices and equipment														
	Gait, Locomotion, and Balance: determine the safety, status, and progression of patients while engaged in gait, locomotion, balance, wheelchair management and mobility														
	Integumentary Integrity: detect absent or altered sensation; normal and abnormal integumentary changes; activities, positioning, and postures that aggravate or relieve pain or altered sensations, or that can produce associated skin trauma; and recognize viable versus nonviable tissue														
	Joint Integrity and Mobility: detect normal and abnormal joint movement														
	Muscle Performance: measure muscle strength by manual muscle testing; observe the presence or absence of muscle mass; recognize														

Term																
	Number including Gen Ed and I Sciences															
	normal and abnormal muscle length, and changes in muscle tone															
	Neuromotor Development: detect gross motor milestones, fine motor milestones, and righting and equilibrium reactions															
	Pain: administer standardized questionnaires, graphs, behavioral scales, or visual analog scales for pain; recognize activities, positioning, and postures that aggravate or relieve pain or altered sensations															
	Posture: determine normal and abnormal alignment of trunk and extremities at rest and during activities															
	Range of Motion: measure functional range of motion and measure range of motion using an appropriate measurement device															
	Self-Care and Civic, Community, Domestic, Education, Social and Work Life: inspect the physical environment and measure physical spaces; recognize safety and barriers in the home, community and work environments; recognize level of functional status; administer standardized questionnaires to patients and others															
	Ventilation, Respiration and Circulation: detect signs and symptoms of respiratory distress, and activities that aggravate or relieve edema, pain, dyspnea, or other symptoms; describe															

Term																
	Number including Gen Ed and I Sciences															
	thoracoabdominal movements and breathing patterns with activity, and cough and sputum characteristics															
7D25	Complete accurate documentation that follows guidelines and specific documentation formats required by state practice acts, the practice setting, and other regulatory agencies.															
	Respond effectively to patient/client and environmental emergencies that commonly occur in the clinical setting.															
Partici	pation in Health Care Environment															
7D27	Contribute to efforts to increase patient and healthcare provider safety.															
7D28	Participate in the provision of patient-centered interprofessional collaborative care.															
7D29	Participate in performance improvement activities (quality assurance).															
Praction	e Management															
	Describe aspects of organizational planning and operation of the physical therapy service.															
7D31	Describe accurate and timely information for billing and payment purposes.

7D14 Identify career			
development and lifelong			
learning opportunities, including			
the role of the physical therapist			
assistant in the clinical education			
of physical therapist assistant			
students.			
7D15 Interview patients/clients,			
caregivers, and family to obtain			
current information related to			
prior and current level of			
function and general health			
status (e.g., fatigue, fever,			
malaise, unexplained weight			
change).			
7D16 Use the International			
Classification of Functioning,			
Disability and Health (ICF) to			
describe a patient/client's			
impairments, activity and			
participation limitations.			
7D17 Communicate an			
understanding of the plan of care			
developed by the physical			
therapist to achieve short and			
long term goals and intended			
outcomes.			
7D18 Review health records (e.g.,			
lab values, diagnostic tests,			
specialty reports, narrative,			
consults, and physical therapy			
documentation) prior to carrying			
out the PT plan of care.			

7D19 Monitor and adjust		
interventions in the plan of care		
in response to patient/client		
status, clinical indications		
7D20 Report any changes in		
patient/client status or progress		
to the supervising physical		
therapist.		
7D21 Determine when an		
intervention should not be		
performed due to clinical		
indications or when the direction		
to perform the intervention is		
beyond that which is appropriate		
for the physical therapist		
assistant		
7D22 Contribute to		
discontinuation of episode of		
care planning and follow-up		
processes as directed by the		
supervising physical therapist.		
7D23 Demonstrate competence		
in implementing selected		
components of interventions		
identified in the plan of care		
established by the physical		
therapist. Interventions include:		
7D23a. Airway Clearance		
Techniques: breathing exercises,		
coughing techniques, and		
secretion mobilization		
7D23b. Application of Devices		
and Equipment: assistive /		

adaptive devices , prosthetics, and orthotics			
7D23c. Biophysical agents: biofeedback, electrotherapeutic agents, compression therapies, cryotherapy, hydrotherapy, superficial and deep thermal agents, traction, and light therapies			
7D23d. Functional Training in Self-Care and in Domestic, Education, Work, Community, Social, and Civic Life			
7D23e. Manual Therapy Techniques: passive range of motion, therapeutic massage			
7D23f. Motor Function Training (balance, gait, etc)			
7D23g. Patient/client education			
7D23h. Therapeutic exercise			
7D23i. Wound management: isolation techniques, sterile technique, application and removal of dressing or agents, identification of precautions for dressing removal			
7D24 Demonstrate competence		ı	

7D24 Demonstrate competence in performing components of data collection skills essential for carrying out the plan of care by administering appropriate tests and measures (before, during

and after interventions) for the following areas:		
7D24a. Aerobic Capacity and Endurance: measurement of standard vital signs, recognizing and monitoring of responses to positional changes and activities (e.g., orthostatic hypotension; response to exercise)		
7D24b. Anthropometrical Characteristics: measurements of height, weight, length and girth		
7D24c. Mental Functions: detects changes in a patient's state of arousal, mentation and cognition)		
7D24d. Assistive Technology: identify the individual's and caregiver's ability to care for the device; recognizing changes in skin condition and safety factors while using devices and equipment		
7D24e. Gait, Locomotion, and Balance: determine the safety, status, and progression of patients while engaged in gait, locomotion, balance, wheelchair management and mobility		
7D24f. Integumentary Integrity: detect absent or altered sensation; normal and abnormal		

integumentary changes; activities, positioning, and postures that aggravate or relieve pain or altered sensations, or that can produce associated skin trauma 7D24g. Joint Integrity and Mobility: detect normal and abnormal joint movement 7D24h. Muscle Performance: measure muscle strength by manual muscle testing, observing the presence or absence of muscle mass, recognizing normal and abnormal muscle length, and changes in muscle tone 7D24l. Neuromotor Development: detect gross motor milestones, fine motor milestones, and righting and equilibrium reactions 7D24j. Pain: administer standardized questionnaires, graphs, behavioral scales, or visual analog scales for pain; and righting and equilibrium reactions, and recognizing artivities positioning and defined as a second and a second a secon
