Glossary

Faculty: All faculty including core and associated.

Associated faculty: Individuals who have classroom and/or laboratory teaching responsibilities in the curriculum and who are not core faculty or clinical education faculty. Associated faculty may include individuals with full-time appointments in the unit in which the professional program resides but who have primary responsibilities in programs other than the professional program.

Core faculty: Individuals appointed to and employed primarily in the program, including the program director, the director of clinical education, and other faculty who report to the program director. If not appointed to and employed primarily in the DPT program, the majority of the individual's work at the institution must involve the DPT program. Core faculty have the responsibility and authority to establish academic regulations and to design, implement, and evaluate the curriculum. Core faculty include physical therapists and may include others with expertise to meet specific curricular needs. Core faculty may hold tenured, tenure track, or non-tenured track positions. Core faculty typically have full-time appointments, although some part-time faculty members may be included among the core faculty.

Other faculty: Core faculty excluding program directors and clinical education coordinators (directors of clinical education and academic coordinators of clinical education).
